5:02:08:00. Guidelines for acceptance of petitions.

When a petition is presented for filing, the person or governing board authorized to accept the petition for filing shall determine if it meets the following requirements for acceptance:

- (1) The petition is in the form required by this chapter;
- (2) The petition contains the minimum number of valid signatures, counted according to 5:02:08:00.01. One or more invalid signatures on a petition section do not disallow other valid signatures on the section;
- (3) Each section of the petition contains an identical heading and is verified by the circulator. The circulator may add the addresses of the petitioners and the dates of signing before completing the verification. The circulator may also add the printed name of the signer and the county of voter registration. Residence addresses may be abbreviated. Dates may be in numbers, but must include month, day, and year. The verification was completed and signed before an officer authorized to administer oaths;

(4) The declaration of candidacy contains the original signature of the candidate. Additional sections may have an original or photocopied signature of the candidate;

(5) If a petition is for a ballot question to be voted on statewide, the signatures were obtained after a copy of the text of the petition was filed with the secretary of state;

(6) The governing board or person authorized by statute to accept the petition shall, if requested, allow a petition circulator the opportunity to add missing information on the signature lines or circulator's verification on his or her petition provided the filing deadline has not passed; and

(7) Following the presentation of the petition for filing, names may not be removed from the petition.

Except for petitions to nominate candidates for school boards, the person who is authorized to accept petitions for filing need not check for voter registration of the signers. Petitions containing signatures in excess of the minimum number may be filed, but the excess signatures will be disregarded.

5:02:08:00.01. Requirements for counting signatures on petitions

Requirements for counting signatures on a petition sheet are as follows:

(1) No signature on a petition sheet may be counted if one of the following conditions is present:

(a) The form of the petition does not meet the requirements of this chapter;

(b) The circulator's verification is not completed or is improperly completed, according to subdivision 5:02:08:00(3) unless the missing information is completed elsewhere on the petition sheet. A completed circulator's verification must include the printed name of the circulator, the circulator's residence address as provided in subdivision 5:02:08:00.01(2)(c), and complete date; or

(c) The declaration of candidacy has not been completed on or after the first date authorized by statute to circulate the petition, and signed by the candidate and the signature witnessed by an official empowered to administer oaths in South Dakota; and

(2) An individual signature on a petition sheet may not be counted if one of the following conditions is present:

(a) It was signed prior to the signing of the candidate's declaration of candidacy or, if for a ballot question, it was signed before a copy of the text was filed with the secretary of state;

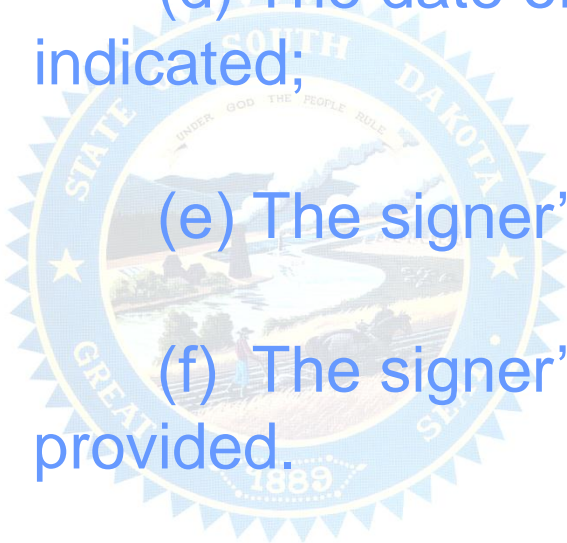

(b) It was signed after the circulator completed the verification;

(c) The residence address does not include a street and house number or a rural route and box number and the town. If the signer is a resident of a second or third class municipality, a post office box number may be used. If the signer does not have a residence address or post office box number, a description of the residence location must be provided. If the signer is a resident of a building with a publicly known name, the building name may be used;

(d) The date of signing, including month and day, is not indicated;

(e) The signer's name is not printed and legible; or

(f) The signer's county of voter registration is not provided.
